Learning Project - to be done throughout the week: Viewpoints

The project this week aims to provide opportunities for your child to learn more about different viewpoints. Learning may focus on physical viewpoints in terms of what you can see outside of the window at home, what others can see looking into your home and then progress onto personal viewpoints.

- **Viewpoints and Mood –**

Ask your child to look into a room in the home and think about how it makes them feel. They can then either draw something linked to how they feel when looking in the room or draw an object from the room and then colour, shade or paint it in a colour that reflects their current mood.

- **Famous viewpoints –**

Wembley stadium, Canary Wharf and the London Eye are just a few of the viewpoints in and around the London area. Your child can choose a London viewpoint and use Google Earth or Google Maps to create an accurate scaled map of the location of the landmark. They may wish to identify all of the London and local viewpoints on their map.

- **Viewpoints from Around the World –**

Your child can research famous viewpoints from around the world (e.g. The Eiffel Tower). Ask them to draw what they think they would see from this viewpoint. After this, they can design and create a miniature scale of the landmarks that give these viewpoints. Encourage them to evaluate their creations.

- **A change in Viewpoints-**

How did Martin Luther King and Rosa Park's actions and views shape society today? Challenge your child to compare and contrast viewpoints from then and now on people's race, culture and religion. How has this improved society's attitudes towards those who are different to ourselves?

- **Debate-**

Is good more powerful than evil? Is it worse to fail at something or never attempt it in the first place? Is it more important to be liked or respected? Ask your child to choose a question to answer, write a speech and use real -life examples to justify their opinion.
