Maths Meeting Time: Play a game to reinforce your knowledge of the days of the week. Play 'Wall Touch'. Write and cut out a set of days of the week card. Randomly stick the cards all over the walls around the room. Then stand in the middle of the room. An adult to shout out "Monday" and you must race over to a Monday card and touch it. Then "Tuesday" and so on (in the correct order) until you make it through all the weekdays. Play another round, this time faster! This activity to be followed throughout the week.

Weather Chart: Look outside your window. What is the weather like today? (E.g. It is Sunny) Describe what you see. Is it dull or bright? What activities can you do on a sunny day? Listen to this weather song to see different activities you could do depending on the weather. [The weather song.](#)

Draw or paint a picture of what the weather is today.

Number Work: Practise writing the number 4 and say the rhyme as you write. Draw the number of objects next to the number. (You can draw spoons,).

Fine Motor Skills: Make a play dough cupcake. You will need: play dough, cupcake cases, decorations, buttons, sequins and candles. How many buttons did you use on your cupcake? How many cupcakes did you make? How many candles did you use and why?

Design and create a flower garden

Choose either of these methods below: Use Lego or any other construction toy to build. Draw a picture of a flower garden. How many different colour flowers can you build?

Let's celebrate Father's Day on Sunday 21st June

Make a card for your dad!
